Rescue Near For 222 On Snowbound Streamliner

THIS SCENE, taken from a Southern Pacific work train, shows the Blue Canyon station, just below Emigrant Gap, where relief trains are battling to rescue 222 persons aboard the snowlocked City of San Francisco in the blizzard-swept Sierra mountains. Twenty-seven persons aboard the Chicago-to-San Francisco streamliner were reported "stretcher cases." Three babies, one of them reported ill, were among the passengers.

Costello To Face New Trial In Contempt Case

Lone Juror Blocks Conviction; Jury Dismissed By Judge

NEW YORK (AP)—Gambler Frank Costello—his first criminal conviction in 37 years reportedly blocked by a lone juror—will face a new trial for contempt of the U. S. Senate Crime Committee.

And the committee's former chairman, Sen. Estes Kefauver (D-Tenn.), may be a prosecution witness at the retrial.

Unable to agree on even one of the 11 contempt charges against Costello, a federal court jury yesterday gave up its efforts to reach a verdict after being out 23 hours and 20 minutes. Federal Judge Sylvester J. Ryan continued the defendant in \$5,000 bail and set Friday for a preliminary hearing on a new trial.

The court acted after the deadlocked jury was discharged and U. S. Attorney Myles J. Lane immediately moved for a retrial.

Costello "Never Unhappy"

Defense Attorney George Wolf said he would be "very happy to re-try this case" but said he first must complete another case, expected to take at least six weeks. Costello, asked how he felt about the hung jury, told newsmen in his raspy voice: "I feel all right. I have never been unhappy. I've faced up to 11 years in prison and \$11,000 in fines if convicted on all counts."

Jurors appeared to avoid newsmen after the trial, but a panel member—who declined use of his name—said "one man held out from the start."

When court adjourned, Lane told a newsmen he had invited Sen. Kefauver to appear as a witness at the trial but that "he did not come." The prosecutor did not say why Kefauver did not appear.

Halley Testifies
Lane then said he would renew the invitation to Kefauver when Costello is tried again. New York City Council President Rudolph Halley, who was the committee counsel, testified at the trial.

Judge Ryan ruled the jurors were not to decide the constitutional issue. Lane said the main point was whether Costello "was bigger than the U. S. Senate."

Not a defense witness was called in the one-week trial.

Trucker Fined \$820 On Overload Count

Mayor Harry M. Vincent Tuesday meted out the largest fine on record at the City Hall to a trucker found guilty of driving an overloaded vehicle.

Merle Burt, 34, of Rd. 2, Columbiana, arrested at 2:30 p. m. yesterday by State Highway Patrolmen on Route 62, just west of Salem, was fined \$820 and costs for hauling a power shovel which exceeded the weight limit of 26,500 pounds.

Patrolmen said that the total weight was 50,200 pounds and exceeded the legal limit permitted by an overload permit by 10,200 pounds. The outfit will have to be dismantled and carried in separate vehicles to comply with the law, patrolmen said.

Burt is a truck driver for Mike Mercure of Rd. 1, New Waterford.

Temporary Funds Appropriated

Go Slow On Spending, City Departments Told

Salem City Council Tuesday night passed as emergency legislation a \$121,895.73 temporary appropriation ordinance designed to cover city expenditures during the first three months of this year.

The amount exceeds the \$106,639.94 appropriated for the same period last year by approximately \$15,000. Fred Koenreich, chairman of Council's finance committee, explained that additional money would be needed this year to pay the elective officers' salary increases which went into effect Jan. 1, and the 10 per cent higher electric rates which are also in effect.

The additional funds would also be used to pay the 10 per cent salary increases granted to city employees last year after the temporary appropriation ordinance had been passed.

Mr. Koenreich stated that since a complete audit of the city's books had not yet been made, it was not definite whether or not the city could maintain expenditures for the whole year in proportion to the amount appropriated for the first three months.

He stated that it might be a good policy for department heads to "go easy" on expenditures until the audit clarifies the city's financial standing.

A breakdown of the appropriation ordinance shows \$58,582.60 earmarked for the general funds, \$37,823.13 for the water fund, \$8,700 for the street repair fund from the auto license tax and \$11,650 for the same fund from the gasoline tax and \$5,140 for the bond retirement.

Salem, as the second largest city in the county, was morally obligated to provide some of the housing facilities, he declared.

Judge Tobin said county commissioners had agreed to enter into a contract with the city, similar to the one which existed between them and East Liverpool.

Under the terms of the contract the county would lease the room for one-year periods at a nominal cost of \$1 per year. The city would be absolved of any responsibility concerning the health, clothing or feeding of the delinquents and the county would pay all costs of furnishing, repairing and upkeep of the room.

County Juvenile Officer C. Csepke and Mrs. Tobin accompanied the judge to the meeting.

17 Acres For Water Project To Be Bought

City Council Tuesday passed an ordinance authorizing the water commission to purchase approximately 17 acres of land needed for completion of Salem's East Cold Run water project.

Two separate tracts will be bought, about 14 acres from J. Wesley Hanna for \$6,500 and two acres from Isaac F. and Vivian Skeels for \$7,000. City Solicitor Walter J. Hunston stated that the reason for the disproportionate sum to be paid for the Skeels property is because of its valuable underlying coal deposits.

Both tracts will be used in the construction of a reservoir road and constitute the last major land acquisition needed for completion of the water works project.

Negotiations between the city and J. Wesley Hanna had been stalemated for months and in December Council passed an ordinance condemning his property for use. The ordinance passed last night was the result of an amicable agreement reached between the property owner and the city solicitor following passage of the condemnation ordinance.

Water Superintendent B. B. Beaver told Councilmen that the work on the water project was progressing satisfactorily and that the planned date of completion, August 1, would find the city using water from the reservoir.

Relief Crews 2 1/2 Miles From Donner Pass

Passengers, Ill From Fumes, Recover; Must Walk To Highway

COLFAX, Calif. (AP)—Rescuers snowplowing through deep drifts pushed within two miles of a blizzard-trapped streamliner today—but still faced much work to reach and bring out 222 stranded passengers and crewmen.

The passengers have been snowbound since Sunday aboard the Southern Pacific's luxurious City of San Francisco. They're in Donner Pass, Altitude 7,200 feet.

Here's the complicated situation: A rescue train still has 1 1/2 miles to go to reach a highway where it will pick up the passengers.

A highway crew still must open 1 1/2 miles of No. 20 to reach its nearest point—1/2 mile—of the stranded train.

The weather was moderating, at least temporarily, and a railroad spokesman said all passengers will walk the half mile to the highway. From there they will be taken by automobile the 1 1/2 miles to the relief train, which will carry them the 83 miles to Sacramento.

The S. P. spokesman quoted Dr. Lawrence Nelson, of Truckee, Calif., who reached the train by dog sled, as reporting all passengers were able to walk to the highway. He said those made ill—variously reported at 27 to 60—by gas fumes two days ago, had recovered.

The relief train, a Pullman-club car combination, has five or six doctors and several nurses, the S. P. said.

Recover From Fumes
Meanwhile, another train started again at daybreak from Norden, 15 miles uphill from the streamliner. It turned back last night because of mechanical trouble. This train carries medical supplies, dogs and dog sleds.

As rescuers worked through the night the marooned passengers huddled in the 20-degree chill of the 7,200-foot Sierra Nevada winter.

They were wrapped in blankets. Fuel oil for heat ran out Monday noon.

Snow drifted high against the windows. Drifts buried the engine.

Some aboard the train were sick, victims of carbon monoxide fumes from a gas heater. However, a railroad doctor who went in via dog sled and snow tractor said most of 60 stricken had recovered.

Passengers Wrap Feet

"We found the passengers, their feet wrapped in torn sheets, huddled on facing seats," reported Art Hoppe, a San Francisco Chronicle reporter in a copy-righted story.

"Somehow they managed to keep up their spirits. But they're a pretty sad looking bunch, and very cold." Hoppe and a photographer had tramped to the train on skis from a lodge six miles away.

Only four had made it out from the train. They told a story of cold and chill, and of heroic work by a doctor and five nurses aboard to defeat the deadly gas.

They rode out on a snow tractor yesterday.

The four, all servicemen, still were sleeping this morning at Nyack Lodge, five and a half miles down slope.

That was where rescuers planned to begin taking the 192 remaining passengers at daybreak if the snowplows could complete a road. There are 30 in the train crew.

Farmers To Hold Technical Meetings Here This Month

Salem, in the center of the Columbiana-Mahoning County farm belt, will be the focal point for a number of farm meetings this month.

Potato growers of the two counties will exchange problems at a conference Jan. 24, preceded by a soils and crops institute next Tuesday. Dairymen met here last week for a successful program.

A large number of the farmers and their families today are attending the annual Salem Farmers Institute—a two-day affair.

Soils, Crops Institute

Program for the annual Soils and Crops Institute, to be held at the Masonic Temple next Tuesday, was announced today by Columbiana County Extension Agent Floyd Lower.

The program will open at 10 a. m. with a motion picture, "Getting Up-to-date on Spittlebug and Legume Insect Control," C. R. Weaver, entomologist at the Ohio Experiment Station in Wooster, and "The Green Pastures Program," J. Q. Hedge and Lower.

Noon lunch at the building will be limited to the first 100 registrants, Lower said.

Subjects and speakers for the afternoon program, beginning at 12:45:

"Soil Tilth in Relation to Crop Yields," John Slipper, extension conservationist at Ohio State University; "Progress in Soil and Water Conservation," Herman L. Reuter, farm planner for the Columbiana Soil Conservation Service.

"Making the Most of Our Pastures," illustrated, D. R. Dodd, extension agronomist at O.S.U.; "Hay Harvesting and Drying," K. V. Battles, extension agricultural engineer at O. S. U., and "Fertilizer and Cropping Recommendations for 1952," Dodd.

Poultrymen Meet Jan. 30

Poultrymen of Columbiana and Mahoning Counties will hold their annual winter institute Wednesday, Jan. 30, in the Masonic Temple.

Listed as speakers are Richard Albright, a Monroeville producer; D. D. Moyer, extension poultryman at Ohio State University; and C. T. Newsom, manager of the Northeast Ohio Poultry Association at Columbiana.

Potato Growers Jan. 24

"Control of Potato Insects and Diseases" will be the discussion topic for the 26th annual meeting of the Columbiana-Mahoning Potato Growers Thursday, Jan. 24, from 10 a. m. to 3:30 p. m. in the Methodist Church.

The following program has been arranged by the Agricultural Extension Service and the board of directors of the growers' association:

10 a. m.—"Potato Growing in Ohio," illustrated lecture, E. C. Wittmeyer, extension horticulturist at Ohio State University.

"The Market and Seed Outlook," C. T. Guindon, assistant manager of the Columbiana Farm Bureau Cooperation Association at Columbiana.

"Results of Test Plot Work," Floyd Lower, Columbiana County extension agent.

WASHINGTON (AP)—President Truman called today for a 1952 tax increase approaching five billion dollars by boosting "some" rates and plugging loopholes.

But Mr. Truman dropped, for the present, his goal of a pay-as-we-go mobilization. And in seeking new revenue, which many congressional tax leaders say they will not vote, the President did not specify whether the burden should be added to business, income, or excise rates—or all three.

His annual economic message to Congress forecast the "most difficult" year of the armament build-up, large federal deficits, some civilian shortages but few hardships, and a "precarious" price problem.

Fixes 2 Major Goals

Mr. Truman fixed two major goals for this "year of strain": First, a five per cent rise in national output; second, one and a third million more men and women at work.

His want-list of legislation was long. It began with a two-year extension of the defense production act; the repeal of "weakening" price control amendments; improved farm price supports; stronger curbs on consumer and bank credit; and so on to a total of a dozen laws.

But the shocker, as far as Congress was concerned, was the President's calm demand for the rest of the "10 billion dollar or more" tax raise he requested last session—of which he got only about \$5,400,000,000.

Tax-writing leaders of both houses have stated publicly they will not increase rates in 1952, after piling 15 billions onto the country's tax bill in the last year and a half. Some repeated the declaration privately today.

Will Plug "Loopholes"

These Congress members, as well as several White House fiscal advisers, had expected Mr. Truman to emphasize the elimination of so-called loopholes and

Egypt Warns Nations To Keep Out Of Suez

PARIS (AP)—Egypt announced today that if the U. S., France, the Netherlands or Norway should send warships into Egyptian territorial waters in an effort to keep the Suez Canal open, the Egyptians would consider it an act of aggression.

Britain has appealed to those four nations to join with her in helping to keep traffic moving through the strategic waterway. The arrival of warships from those countries would be considered a violation of the Suez Canal convention of 1888 and would bring an appeal to the United Nations, said Dr. Mahmoud Azmy Bey, Egyptian delegation spokesman at the General Assembly session here.

In addition, he said, if these countries should send technical aid, pilots and dockers, as suggested by Britain, Egypt would consider this an "unfriendly act."

Carlson To Arrive In U. S. Tonight

Plane Out Over Ocean
Has Trouble, Returns

SHANNON AIRPORT, Ireland (AP)—Capt. Kurt Carlson made his second start for New York this afternoon in the Pan-American clipper Washington. He is due to arrive at Idlewild Airport in New York shortly after 11 p.m.

The hero's welcome in New York for the skipper of the sunken Flying Enterprise has been postponed until tomorrow. A ticker tape reception and a march up Broadway awaits him.

His plane returned to Shannon yesterday after covering 230 miles. A heater in one wing failed to function properly.

The second start was made at 8 a.m. Mechanics worked all night to repair the defective heater.

Carlson and 30 other passengers slept at the airport.

The delay caused Carlson to

say last night: "I'm beginning to wonder if I'll ever get back to New York and home."

The reception at home will cap honors paid to him in London for his two weeks' battle against the Atlantic in a vain effort to get his storm-wrecked ship into port.

Carlson said he was "awfully sorry" about the delay—"not for myself, but because of the New York reception and the upsetting of so many people's plans there."

The planes' operators, Pan American World Airways, said it would take off for New York at 8 a.m. They also had ordered another transatlantic airliner, due here from Frankfurt, Germany at the same hour, for a standby.

Airport officials said the take-off would put Carlson in New York about 11 p.m. tonight.

The airliner had been held here for two and a half hours last night while repairs were made on the defective heaters. It took off shortly after midnight, and flew 280 miles out over the Atlantic.

Then the de-icer trouble recurred, forcing the pilot to return.

First Carlson and his fellow-passengers stayed in their berths on the grounded plane. Later they were taken to the airport hotel for the night.

On his arrival here last night Carlson was greeted by Limerick's mayor, Stephen Coughlin, who presented him a bottle of Irish whiskey and a lifebuoy of flowers.

"I hope I shall not need this," said Carlson of the floral life-saver.

ROYAL ENGAGEMENT AHEAD?—A visit by the Earl of Dalkeith, 28, above, to Princess Margaret Rose at Sandringham, the King of England's private estate, rekindled London rumors that announcement of a royal engagement may be expected soon. Dalkeith, heir to a fortune and most eligible young man in Britain, has been listed as a strong contender for the hand of the 21-year-old princess for the past three years. British observers noted a parallel between the royal family's gathering at Sandringham, with Dalkeith present, and the circumstances that saw engagement of Princess Elizabeth and Prince Philip four years ago. Princess Margaret insists she's in no hurry to wed, may wait until she is 25.

Taft 3 To 1 Choice Over Ike In Poll of GOP Committeemen

SAN FRANCISCO (AP)—Senator Robert A. Taft of Ohio is a three-to-one choice over Gen. Dwight D. Eisenhower for the Republican presidential nomination among GOP national committee members willing to express an opinion.

An Associated Press poll of the 98 members who represent the 48 states disclosed: Of 43 willing to state how they stand, 31 favor Taft, nine support Eisenhower, two are for Gov. Earl Warren of California and one backs Harold E. Stassen.

Members are arriving for a national committee meeting beginning tomorrow. Western regional GOP officials planned to study their own problems today.

A similar poll taken at a meeting in Washington a year ago gave Taft 29 votes; Eisenhower 12. Thus Taft is holding his own but apparently Eisenhower has lost strength.

These results came in the face of an announcement by Eisenhower that he is a Republican and is available for the presidential nomination, although he has said he will not participate in pre-convention campaigning.

Last year's poll gave Stassen four votes, Warren two and one each to the late Senator Kenneth Wherry of Nebraska and Gov. Thomas E. Dewey of New York.

The current canvass reached 85 members. It showed that 42, or almost half are unwilling six months before the GOP national convention to express an opinion either publicly or privately about their party's nominee.

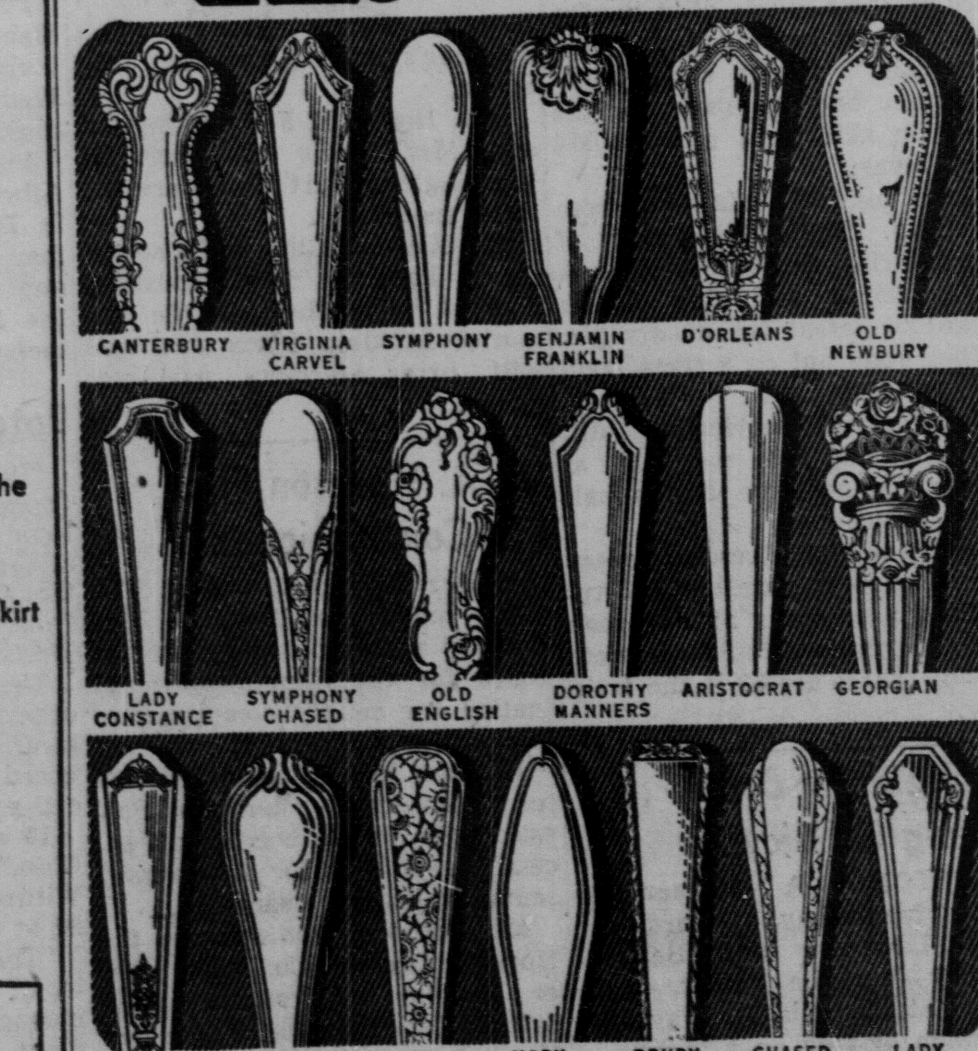

This obviously left a wide field for campaigning among party officials.

Britain Rejects Iran's Consulate Closing Order

TEHRAN, Iran (AP)—Britain bluntly rejected today an Iranian demand to close all nine British consulates in the country.

The Iranians made the demand Saturday in a note accusing Britain of "interference of British government officials in the domestic affairs of Iran." Premier Mohammed Mossadegh said on Sunday the closure order would stand as long as he headed the government.

Egypt Jubilant As Prince Is Born

CAIRO, Egypt (AP)—Queen Narriman, beautiful 18-year-old wife of King Farouk, gave birth today to a son, heir to the throne of this Nile Kingdom.

The birth of the crown prince, at a time of crisis in Egypt, was met with an explosion of popular joy. The arrival of infant prince Ahmed Fouad—he is named for his grandfather King Fouad I—was hailed as an omen of victory in Egypt's bitter fight with the British.

A 101-gun salute roared over the city, even as other guns roared to the north in a battle

between Egyptians and British in the Suez Canal zone.

Palace sources said the queen and her son were doing well. Prince Ahmed Fouad was born at 8:20 a.m.

Navy Plans Fleet of Super-Carriers for A-Bombers

President Truman's budget will include funds to build one, maybe two, more 60,000-ton supercarriers capable of launching medium-range atomic bombers, according to Rep. Carl Vinson. The Armed Services committee chairman said his group would give priority to a bill authorizing the new carriers. They will be patterned after the U. S. S. James V. Forrestal, now under construction at Newport News, Va. Pictorial diagram above, with artist's conception by Steelways magazine, shows some of the radical features of the Forrestal. The 59,900-ton flattop is bigger by 15,000 tons than any now afloat. Inset sketch shows how the usual navigation bridge and flight-control "island" superstructure will be retractable to allow full use of the flight deck. The smokestacks (inset) are also flexible and capable of being turned outboard. Other inset sketch shows a feature pilots down in the ready room will welcome—an escalator to carry them topside. This is no "sissy" refinement. The minutes and strength it saves over pilots climbing 80 feet of ladder with parachutes strapped on their backs and two belts of 50-caliber ammunition over their shoulders may make the difference between victory and defeat in today's fast-paced aerial warfare.

Truman

(Continued From Page One)

"inequities" by which the President says some well-to-do groups have escaped their full share of the tax burden.

The loophole-stoppers he has mentioned would, in fact, provide two to three billion dollars in revenue, amounting to half or more of the new request. They are expected to get a better hearing than requests for higher income, business, or excise rates.

But Mr. Truman, telling Congress he expects an eight billion dollar deficit this fiscal year, ending June 30, and a "dangerously large deficit" of about 15 billion dollars in the following year, asked for both revenue-raising approaches to minimize the red ink.

The President's Council of Economic Advisers, headed by Leon Keyserling, in a 187-page economic review sent to Congress along with Mr. Truman's message, foresaw only a "moderate" increase of inflationary pressures this year, assuming no relaxation of controls.

"But any relaxation would increase the possibility of another inflationary upsurge," the council wrote, "which could be even more serious than that of mid-1950 or a year ago because it would start from tighter conditions of supply in many sectors of the economy."

New Hike Now Harmful
As for higher taxes, the council said there is a limit beyond which rate increases may be "unwise," because they dampen business incentive and perhaps even reduce earnings to the point of reducing the tax yield. The proposed new increase does not reach that limit, the council held. Tax boosts intended to curb

inflation may also be self-defeating, the council said, to the extent that they "heighten the demand for higher wages and for larger gross business profits, which is an inflationary aspect." Price-wage controls are needed, the council said, along with the tax and credit control weapons against inflation.

Eight "Explosive" Sweaters Turned In

City residents have turned in eight "explosive" sweaters to the fire department, Chief Clarence W. Wright said today.

The garments, some bought in recent months and others as far back as 1950, were in all cases purchased from street peddlers or salesmen in automobiles.

A check of stores in town revealed none of the sweaters in stock and records to show that none had ever been sold.

Chief Wright today warned residents that if they possess any of the inflammable sweaters, they should turn them over to the fire department for destruction. Individual attempts to dispose of them might bear dangerous results, he said.

The "explosive" sweaters have created a small-scale national scare and mounting evidence supports authorities' contentions that this district was not neglected by peddlers of the garments.

ROADS RUINED DURING WAR, KAUER SAYS

WASHINGTON (AP) — The nation's highways "simply can not stand the beating of another all-out war effort," a highway expert said today.

"Our highways must not be allowed to become expendable again as they were in the last war," declared T. J. Kauer, Ohio's highway director.

"During World War II," he said, "it became patriotic for truckers to pile up unprecedented loads on their vehicles to keep the materials of war flowing."

"The result was that our roads, never built to carry such weight, came out of the conflict literally broken to pieces."

Will Form This Month

The 1952 Mahoning 4-H Tractor Maintenance Club will be organized late this month.

Boys operating farm tractors are eligible to join the club, participate in the meetings, make tours and try their skill in the tractor rodeo during the summer and at Canfield Fair time.

Leaders for the 1952 clubs, Edward Sakely, Poland, and Lindsay Moore, Coitsville, attended the training school at Ohio State University the last week in December.

Boys 15 to 20 years of age, living in Mahoning County operating a farm tractor, are eligible to join. Interested boys should contact Edward Sakely, Lindsay Moore or Agricultural Extension Office, 315 Post Office building, Youngstown.

TRAFFIC VIOLATOR MOVES

LISBON—Police Chief Dalton E. Pike hit a dud Tuesday in his mail campaign to collect \$1 fines from out-of-town motorists who leave him stuck with parking tickets.

A letter to a Dayton man, tagged in November, came back with the notation: "Mr. Harruff's gone to Saudi Arabia, for five years if you wish to contact him."

If You Can't Spot-Bowl, Keep Your Eyes On Pins, Says Bomar

SPOTTED—Buddy Bomar's first ball shows where it first strikes the alley, the second is passing over the seven-foot dots, the third the darts.

(Ninth of a series)
By **BUDDY BOMAR**

Former Match-Game Champion

While many concentrate on the pins, a great number spot-bowl. They select a spot at which they drop the ball and another over which the ball should roll.

Spot-bowlers do not keep their eyes on the pins as they move through their approach, but instead look at the spot they have selected on the alley.

Many alleys have installed Rangefinder dots and darts as aids to spot-bowlers.

THESE CONSIST of two sets of dots at the beginning of the approach to help locate your proper starting position. Seven more spots are located at the foul line as a guide for your sliding left foot. Another set of 10 dots are located seven feet beyond the foul line to act as a directional guide for your ball, and the final seven darts are imbedded approximately 14 feet down the alley.

Practice on alleys equipped

with Rangefinder aids enables you to determine just where you should stand at the approach, and where your ball should be released. These dots and darts help you to find exactly the same spot each time and to groove your delivery.

In the accompanying art, we have three balls located at different positions. The first is where the ball first strikes the alley, the second is where it passes over the seven-foot dots, and the third is passing over the darts.

ANOTHER METHOD of checking what went wrong after an incorrect delivery is the study of the left foot at the foul line. If it is not lined up with the Rangefinder dot I intended, I know I drifted too far to one side in my approach.

I don't recommend spot-bowling or pin-bowling. Try both and see which is best suited to you.

Many can't develop the knack of spot-bowling. If you are one of them, stick to pin-bowling.

NEXT: Turn in your spares.

Goshen Union Drops Close Game, 63-59

Goshen Union staged a close battle with Southington last night on their home floor but the latter outfit tallied four more points in the final period than did the Union five to win, 63-59.

The Goshen team fell ten points behind in the initial quarter as the visiting five slipped in 20 markers while the Unioners could get only ten points.

But the losers came back with a 23-point second period to tie the game at half-time, 33-33, as Southington tallied just 13 markers. Both teams scored 16 points in the third quarter and the two teams went into the final stanza all tied up at 49-all.

The winners managed to tally 14 in the quarter and Goshen fell back with only ten as the visitors took a 63-59 decision.

Carson McNeeley scored 19 markers for the losers to head both teams in the scoring department but Dick Wick and his teammates came out on top as he led them with 18 points.

The Goshen Reserves won 43-38.

Lisbon Breaks Losing Streak With Victory

The Lisbon Blue Devils broke their four-game losing streak last night on their home court as they took an eleven-point decision from the Chester (W.Va.) Panthers, 51-40.

Coach Jack Mill's Devils routed the Panthers with an 18-point final quarter to win the fourth game of the season after taking the initial three tilts and then falling to a losing streak of four contests.

CHESTER OPENED the game by taking a small 13-10 lead at the quarter and Lisbon fought back to hold a 22-21 margin at intermission.

Eleven points in the third period gave Lisbon a three-point lead as the teams entered the last quarter, 33-30. Then the Millsmen opened up with their biggest quarter of the game to gain the victory.

The visiting Panthers were somewhat hampered by the loss of three players via the foul route. Dick Clutter, Chester, leading scorer, fouled out in the early fourth period as did two other Chester cagers, both of whom were over six-foot, one being 6-ft, 6-in.

ROGER BORING led the Blue Devils to the victory as he substituted in the second period and played the remainder of the game. Boring tallied four goals and seven fouls for a 15 point total to top both teams. Clutter garnered nine markers for the losers.

The Lisbon Reserves also tallied a win in the preliminary tilt, 42-28.

PGA Approves Bomber; Other Negro Ruled Out

SAN DIEGO, Calif. (AP)—Former heavyweight boxing champion Joe Louis was the winner today in his fight to gain Professional Golf Association approval to play in the San Diego Open tournament tomorrow.

Louis claimed it made him the first Negro, amateur or professional, to gain such approval.

The decision to accept his entry as an invited amateur was announced last night by Horton Smith, PGA president.

Louis was paired with Smith and another PGA national commit-tee man, Leland Gibson of Kansas City, as a starting three-some tomorrow.

SMITH ALSO announced that a PGA ban would stand against another Negro, Los Angeles Professional Bill Spiller. He said Spiller lacked PGA approval as a professional and also was subject to a long-standing tradition based on the PGA by-law that all members must be white.

Louis declared the by-law did not prevent Spiller being named an approved player by the PGA and insisted the ban was "just because he is colored."

THE FORMER RING champion said he would play, even though Spiller was ruled out, but that he would continue his fight to gain equal rights for Negroes in golf.

He said it was the last sport in which racial prejudice now exists and that the PGA rule was the major reason.

"This is only the first round," he declared.

Louis said he had nothing against Smith and that when he called him "another Hitler" earlier in the week "it was not him personally but the things he stood for."

The former champion said he had received congratulatory telegrams on his fight from such figures as Jackie Robinson, first Negro player in white professional baseball, and movie actor Adolphe Menjou.

SMITH SAID he expected that the PGA annual meeting next November would take some action to clarify the situation and possibly establish a uniform code with other golf organizations on the approval of players.

He insisted the PGA rules were not intended to "be difficult for any one but only to protect the game."

THE DRAFT of college players is slated for tomorrow, and Collins' woes will be taken up at Friday's business session. Club owners also will have before them the anti-trust suit of the federal government against the league charging violation of laws because of restrictions on televising games.

George Halas of the Chicago Bears will propose a new round-robin schedule.

Bell said after-touchdown conversions now are almost automatic, and we would propose each touchdown be worth seven points. This, he said, would discourage gamblers in establishing "point spreaders" on games and save many footballs kicked into the stands at \$17 per.

Clippers Capture Tenth Win, 58-34

Columbiana's Clippers tallied a 58-34 victory last night in Lowellville for their tenth victory of the season against a single loss.

The Clippers took the win with ease as they tallied 21 markers in the initial period and held a 21-15 lead. Lowellville slowed down then as they scored just 19 points thereafter while the Clippers tallied 17, 10 and 10 in the final three periods.

Jack Stephens tallied nine goal and a foul to lead the Clippers to the win.

The younger Columbiana tallied their eleventh straight win of the season as they beat the Lowellville Reserves in a slow preliminary game, 20-17.

Reds Seek Synthetic Atomic Ban - Acheson

WASHINGTON (AP)—Secretary of State Acheson, blasting new Soviet disarmament proposals, accused the Russians today of seeking only a "paper prohibition" against atomic weapons.

He said they offered no assurance of agreeing to a control system which would assure prohibition of such weapons.

Acheson spoke out in a news conference discussion of Soviet proposals placed before the United Nations in Paris. He said the United States would examine the Russians' ideas but that international inspection which the Soviets are now talking about has never been regarded as an adequate safeguard against the illegal possession of atomic weapons in defiance of some future control system.

Soviet Foreign Minister Andrei Vishinsky has offered to accept international control at the same time a ban on atomic weapons goes into effect and to accept continuous international inspection of atomic facilities instead of only periodic inspection.

Acheson said that the Russians even on inspection, would bar interference in the domestic affairs of any state so that the Soviet Union "would appear to give with one hand (in agreeing to inspection) what it takes away with the other."

Driver Fined \$30 For Leaving Accident Scene

Harry E. Fickes of Glenmore, arrested at 11:30 p.m. Tuesday by the State Highway Patrol for leaving the scene of an accident on Route 7, was committed to Lisbon village jail early today in lieu of a \$30 fine after being found guilty by Justice Felix Butch of Lisbon.

Fickes was driving a State Highway Department truck which sideswiped a tank truck and left the scene of the accident.

Blast Believed Cause Of Man's Face Injuries

WEST POINT—Joseph Pilko, a Madison Township resident, is in East Liverpool City Hospital suffering from lacerations and burns of the face received about 3:30 p.m. Tuesday while working with the crew on a township road.

It is believed a dynamite cap exploded in his face. The crew was at work on the Alderick School Road, south of here on Route 45.

To announce to the people that their bread was finished and ready for sale, 14th century bakers blew horns.

Harwood Takes Over City Directorship

J. Arch Harwood, former district manager of the Natural Gas Company of West Virginia, today assumed his new duties as city-safety-service director, replacing C. E. Phillips who resigned.

Mr. Harwood, still acting as special representative of the gas company, has indicated that his temporary position with the company will in no way conflict with his duties as safety-service director, which is a part-time job.

Mr. Phillips is eligible for pension.

Lifeboat Is Found; Hopes For Men Wane

SEATTLE (AP)—A grim blow to hope that any of the crewmen from the missing freighter Pennsylvania survive — an empty, drifting lifeboat — brought a sharp reduction in the scope of air and sea rescue operations today.

The lifeboat, sighted yesterday afternoon from two Coast Guard airplanes, was approximately 600 miles off the Washington coast. An error in computation of position led to an early report that two of the craft had been seen.

With the life boat was debris believed to be cargo from the hold of the Pennsylvania, which last reported it was "down by the bow" 125 miles to the northwest.

The ship's radio sent several SOS appeals, then said its "45 persons aboard" were "leaving."

Sighting of the empty lifeboat reduced to a virtual minimum hope that any of the crewmen survived.

Court Decides Against Trucking Firm In Suit

COLUMBUS (AP)—The State Supreme Court held today a motorist killed after his car hit a roll of sheet steel on the highway did not contribute to his own death through negligence.

The court affirmed a Cuyahoga County Common Pleas court decision awarding \$10,000 damages to Fantina McFadden, Cleveland, for the wrongful death of her son, John.

He was killed March 9, 1948, when his car struck a 13,000-pound roll of steel, 34 inches high, that dropped on Route 14 north of Ravenna at night from a truck owned by the Elmer C. Breuer Transportation Co. Cleveland. The award was against the company.

Arrests Follow Two Road Mishaps

State Highway Patrolmen made two arrests Tuesday night following two accidents which occurred at the same place, three-quarters of an hour apart.

At 8:45 p.m., a car driven east by Mike Skorich, 56, of Massillon, collided with an approaching truck-trailer driven by Edward Pysniak, 34, of Hammondsville on Route 30, three miles east of Minerva.

Skorich was arrested for reckless operation and fined \$50 and costs by Lisbon Justice of the Peace Felix Butch.

At 9:30 p.m., a car driven east by Dan Wood, 36, of Chicago and slowing down at the scene of the first mishap was struck in the rear by an auto operated by John Potts, 51, of Carrollton.

Potts was arrested, taken before Justice Butch and fined \$25 and costs for failing to stop within an assured clear distance.
